PROFESSIONAL SUMMARY

Network Security Engineer with 7 years of experience supporting enterprise and OT network environments. Hands-on experience with Palo Alto Firewall, Check Point Firewall, Zscaler ZIA, Cisco ISE, Illumio, Cisco ASA, Cisco DNA Center (DNAC), switching, and routing. Experienced in firewall rule management, network security troubleshooting, cybersecurity-related issues, P1 incident support, firewall upgrades, certificate renewals, security patching, change management, and network infrastructure operations.

TECHNICAL SKILLS

Network Security: Palo Alto Firewall, Check Point Firewall, Zscaler ZIA, Cisco ISE, Illumio, Cisco ASA, Firewall Policy Management, Security Troubleshooting

Networking: Switching, Routing, LAN, WAN, Network Troubleshooting, Network Configuration, Network Design

Network Management: Cisco DNA Center (DNAC), Cisco Catalyst Center, NetScaler Load Balancer

Operations: P1 Incident Support, Incident Troubleshooting, Change Management, CAB, Security Patching, Hotfixes, Service Packs, Certificate Renewal, Vendor Management

PROFESSIONAL EXPERIENCE

Infosys — Network Security Engineer | Cyber Security Engineer

02/2025 – Present

Pune, India

- Support enterprise and OT network environments using Palo Alto Firewall, Zscaler, Cisco ISE, Illumio, switching, routing, and Cisco Catalyst Center for network security operations and troubleshooting.
- Create and review approximately **50+ firewall rules per month** and troubleshoot cybersecurity-related network issues to address security and access requirements.
- Support approximately **2–3 P1 incidents per week** and perform Palo Alto Firewall upgrades based on reported vulnerabilities and end-of-life requirements.
- Manage firewall certificate renewals end-to-end, including CSR generation, coordination with the certificate team, installation, and validation.
- Upgrade **100+ devices through Cisco DNAC** and approximately **50–70 devices manually** as part of network infrastructure maintenance.
- Implement security patches, hotfixes, and service packs; maintain security and network documentation; and train new employees on information security policies.

Accenture — Network Engineer

10/2022 – 02/2025

Bangalore, India

- Supported network security operations using Zscaler ZIA and Check Point Firewall, handling approximately **10–15 Zscaler troubleshooting tasks per week**.
- Upgraded the Check Point management console from **R81.10 to R81.20** and performed upgrades on approximately **10 Check Point firewalls**; also performed IOS and network infrastructure upgrades.
- Supported approximately **2–3 P1 incidents per week**, participating in troubleshooting calls and coordinating incident resolution.
- Managed firewall certificate renewals based on expiry requirements and identified and resolved network security violations while following established security procedures.
- Analyzed network logs for outages, configuration errors, and security alerts; reviewed and updated network configurations and settings to support network reliability.
- Presented critical network changes during CAB reviews, managed switches, routers, and firewalls, provided end-user network support, and documented incidents, changes, and troubleshooting activities.

LTI Mindtree — Network Analyst

09/2019 – 09/2022

Chennai, India

- Resolved approximately **10 VPN-related issues per day** on Cisco ASA firewalls and supported firewall, VPN, and security rule maintenance activities.
- Troubleshoot LAN and WAN connectivity issues and coordinated with vendor support for circuit-related issues and repairs to restore network connectivity.
- Used Cisco ASA and Cisco ISE to support network access control and user access management.
- Implemented and supported firewalls and VPNs as part of network security operations.
- Worked on NetScaler load balancer configuration and related network support activities.

EDUCATION

B.Tech — Computer Science and Engineering

Bengal College of Engineering, Durgapur, West Bengal
